

WBM10RSN

Mechanism 10A rotary SENSOR

Technical properties

Architecture

Type of control unit	Rotative
----------------------	----------

Main electrical features

Nominal voltage	250 V AC
-----------------	----------

Electric current

Rated current	10 A
---------------	------

Dimensions

Depth	45 mm
-------	-------

Connection

Type of connection	with screw terminals
--------------------	----------------------

Type of connection	Screw connection
--------------------	------------------

Safety

RoHS conform	Yes
--------------	-----
