

## Surface BESA Digital PIR Occupancy Sensor

### Technical Characteristics

Fixing mode	flush-mounting
Frequency	50/60 Hz
Breaking capacity	
Max. transmission range	
Supply voltage	230 V +10% / -15%
Colour	white
Mounting type	
Maximum Mounting Height	3.5 m
Type of load	24 DALI/ DSI ballasts
Connection type	
Type of contacts	
Time delayed range	1min to 1h
Response value sensitivity adjustable	No
Type of display	
Remote controllable	EEK001, EEK002
Protection index IP	IP41
Protection class	isol.class II
