

# TX510

Presence detector 360° KNX, 2 channels, with BCU

- Architecture
  - Bus system  
KNX
- Functions
  - Function  
Switching functions, dimming functions, blind control functions, value transmitter functions, forced control functions, scene functions, heating...
- Connectivity
  - Bus system radio frequent  
Yes
- Detection
  - Angle of vertical detection  
55 °
- Materials
  - RAL colour  
RAL 9010 - Pure white
  - Material  
PC-ABS
  - Surface appearance  
matt
- Installation, mounting
  - Maximum Mounting Height  
4 m
- Settings
  - Setting  
with potentiometers for setting the response brightness and delay time without dismantling
- Equipment

- Number of channels  
1
- Angle of horizontal detection  
360 °
- Temperature
  - Operating temperature  
0/45 °C
- Identification
  - Designation syntax: Core designation/function  
Presence detectors
