

TCC510S

Presence detector 360° monobloc KNX, white

Technical characteristics

Architecture

Bus system	KNX
------------	-----

Functions

Function	Linking several detectors in order to expand the detection area
----------	---

Connectivity

Bus system radio frequent	No
---------------------------	----

Detection

Detection angle	360 °
Angle of vertical detection	55 °

Materials

Colour	white
Surface appearance	matt

Lighting control

Brightness measurement range	5 / 1000 Lux
------------------------------	--------------

Installation, mounting

Maximum Mounting Height	4 m
-------------------------	-----

Settings

Setting	with potentiometers for setting the response brightness and delay time without dismantling
---------	--

Equipment

Number of channels	1
Angle of horizontal detection	360 °

Use conditions

Operating temperature	-10...45 °C
-----------------------	-------------
