

WMMPIR10X

PIR 10m Detection Euromodule White

Technical characteristics

Dimensions

Installation height	10 - 10 m
---------------------	-----------

Detection

Type of sensor	Movement detector
----------------	-------------------

Materials

Colour	White
Surface finish	Glossy
Treatment	Untreated
Material	Duroplastic

Reach distance

Max. transmission range frontally	10 m
Max. transmission range sideways	10 m

Settings

Response brightness adjustable	Yes
--------------------------------	-----

Safety

Ingress Protection (IP) class	IP20
-------------------------------	------
