

Sollysta Twin USB Euro-Module

Euromodules are designed in a format which allows inserts to be interchanged within a wiring accessory Europlate, allowing the bespoke make up of functional units. Euromodules are designed to fit into any Europlate.

This USB charging module allows 2 mobile devices to be charged simultaneously. Max charging capacity 1.8A can be drawn from either port or shared between the two.

Description	Cat ref.
Twin USB Euro-Module White - 50 x 50mm	WMMUSB
Twin USB Euro-Module Black - 50 x 50mm	WMMUSBB

Technical Characteristics	
Connector	USB Type A
Input Voltage	100-240VAC/50/60Hz
Output Voltage	5VDC (±5%)
Output Current	1.8A per socket, if 2 devices are connected, total 1.8A
Power Consumption in Standby	<300mW
Gross weight	0.2Kg
Net Weight	0.19Kg
Size	Double Euromodule 50mm x 50mm x 42.5mm
Conductor size	Max. 2.5mm ² (2 Terminals L, 2 terminals N)
Connector type	Screw Terminals
Warranty	2 Years

Features & Benefits

- Available in white or black
- Fits into a standard 35mm backbox
- Short circuit and overload proof
- Low standby consumption
